Professional Profile

Senior Product Manager with a strong background in mobile and web products. Proficient in guiding diverse teams, crafting strategic roadmaps, and optimizing user experiences. Always on the lookout to leverage AI innovations that can drive transformative results and unlock efficiencies. Proven track record of leading projects from inception to successful launch, prioritizing excellence, innovation, and efficiency at every stage.

Career Summary

Senior Digital Product Manager, Wells Fargo Bank

Apr 2024 – Present

KEY RESPONSIBILITIES

- Spearheading the development of a **B2C onboarding platform**, "Onboarding as a Service," designed to streamline the onboarding for our Commercial Banking & Corporate Investment Banking customers.
- Leading the **end-to-end product lifecycle**, including defining and **prioritizing capabilities** by collaborating with business stakeholders to determine specifications and requirements.
- Driving innovation by integrating **user-centric improvements** that enhance the overall customer experience.
- Exploring AI use cases to improve efficiency and reduce human interference in the onboarding process.
- Strategic planning for the **future expansion** of the platform across other business divisions within Wells Fargo to support broader organizational transformation goals.
- Currently focused on **designing the customer experience** so that our customers can initiate onboarding requests and provide the necessary documents and details seamlessly.

Product Manager, Capgemini Invent | ServiceLink

Apr 2022 – Mar 2024

KEY RESPONSIBILITIES

DESIGNATION: MANAGER

- Own the long-term **product roadmap** and **product vision** for ServiceLink's **Mortgage Processing SaaS product**.
- Lead a cross functional team of 1 UX, 7 Dev, and 3 QA resources to drive the delivery of a **product backlog** across the entire **product lifecycle** by gathering requirements from all levels of stakeholders, including **UI/UX, customer journey mapping, and product design**.
- Initiate discussions with the Product team, Engineering team, and Tech Leads to coordinate **release planning, MVP planning** and host **Scrum of Scrums**.

PRODUCT METRICS ACHIEVED

- Reduced average turnaround times** for all orders from origination till disbursement from 6 days to 4 days.
- Improved NPS scores** given by lenders from +16 to +43 in the first 3 months of its introduction.

Senior Product Owner, Capgemini Invent | HSBC

Jan 2020 – Mar 2022

KEY RESPONSIBILITIES

DESIGNATION: SENIOR CONSULTANT

- Support the product discovery for HSBC's mobile banking app using competitor analysis and focused interviews, to define the **product roadmap** and **product vision** to develop **card control features** for the bank's customers.
- Host **product design workshops** to design the **customer journeys** and UI/UX.
- Excellent exposure to core **Product Management functions** such as prioritizing the product backlog, creating & grooming user stories, writing acceptance criteria, and defining personas.

- Successfully launched four journeys: Temporarily block/unblock a card, set travel plan, and set a monthly spend limit for the UAE market; report damaged card or stolen card for the UK market.

PRODUCT METRICS ACHIEVED

- 46% **adoption rate** for monthly spend limit. 18% eligible users utilized the temporarily block/unblock card feature at least once, and 8% eligible users utilized the set travel plan feature at least once post 30 days of introduction.
- 55% **reduction in calls to customer care** hotlines to report a lost card or damaged card post 30 days of introduction.
- **Increased NPS score** specifically for the app from -12 to +16.

Product Owner, Capgemini | Morgan Stanley

Jun 2017 – Dec 2019

KEY RESPONSIBILITIES

DESIGNATION: CONSULTANT

- Participate in **product discovery** to understand the current state of Morgan Stanley's data transfer tool and build a **product roadmap** to **upgrade** it into a reliable tool for all GDPR compliant data transfer needs.
- Wrote user stories, groomed them with the development team and participated in UAT for successful delivery of the application.

PRODUCT METRICS ACHIEVED

- The improved tool earned a 78% positive response from internal users for its new look and features.
- 91% of application owners responded that the test data generated "met or exceeded expectations" in a survey conducted for a duration of 60 after go-live of the new tool.
